

Chempace Corporation is proud to introduce a low cost solution for the formaldehyde controversy plaguing the industry. We call our product **Odor Absorb Supreme**. This 14oz gel canister was developed to continuously absorb the formaldehyde gas emitted.

Everyone's health is important to us as well as the integrity of our Industry. This product will bridge the gap between the public's perception, the dealers and the manufacturers, aiding in the growth of our future. Lab tested and scientifically proven to reduce ambient levels of formaldehyde gas; this is a healthy solution to enhance your indoor air quality and camping experience.

Chempace Corporation was founded in 1968 with one basic principle-our customers always come first. Now 40 years later, with six divisions, we are selling to all fifty states and twelve different countries. Chempace is a nationally known chemical manufacturer affectionately referred to as the "solution people". Our solution is to offer a low cost solution to a potentially very expensive problem to this predicament; to resolve the problem before it ever reaches the consumer.

Sincerely,

Richard Shall
